

# For Students

# Present challenges for Academic Institutions

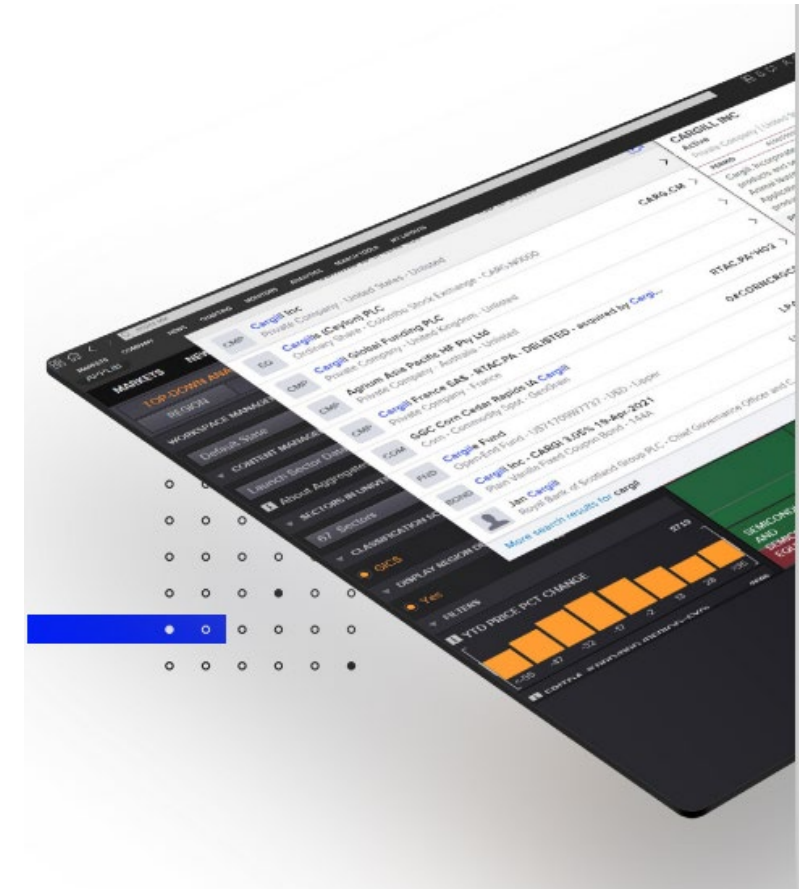

## Hybrid learning, productivity and efficiency

- Remote and hybrid working has become a reality and both educators and students have access to financial intelligence even if they are away from campus
- Academic institutions need to provide students best-in-class solutions to boost results, giving them a head start as they transition into the workforce
- Boosting applied learning and productivity with non-tailored solutions is difficult

## License management and security

- Managing license management effectively can be resource reliant
- Ensuring students who left the university are not able to access databases
- Individual license models means licenses need to be assigned and unassigned as students join and leave

# Be a step ahead of your peers

**LSEG Workspace is a powerful and intelligent learning solution that meets the needs of both students and educators.**

LSEG Workspace gives academia a richer, more interactive learning and teaching experience and surfaces expertly vetted, reliable and meaningful data quickly.

Combining exceptional data, news and content coverage with cutting-edge web technology that is fast, light and intuitive, it gives academia an edge to create best in class learning experiences while giving students a step up as they move into the workforce

# Bringing next generation financial intelligence to academic institutions

## Boost research with AI-powered search and snapshot previews

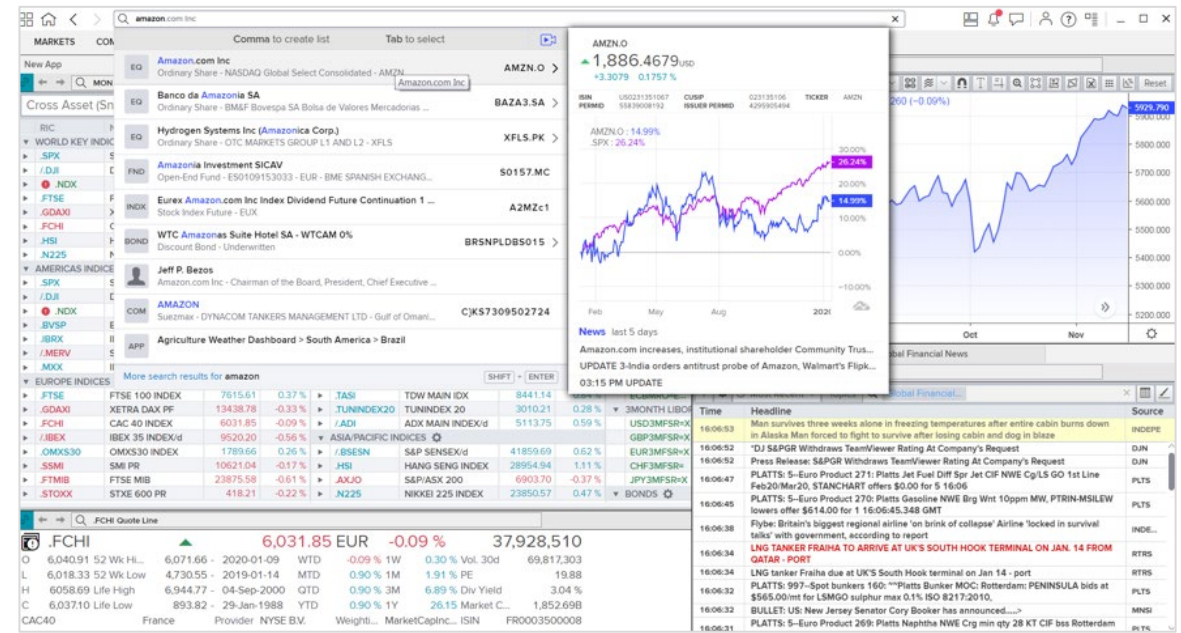

Designed to show preview results with minimal screen interruption or searching, snapshot previews enables students and academic staff to access needed content without even having to click search.

## Open and agile

Researchers and students can conduct deeper data modelling and analysis with modern APIs and popular languages such as Python, helping them broaden their knowledge of the markets. They can access the raw data, extract it, build it into models and applications – open access to our data – to drive innovation and research.

## Single sign-on and license management

The License Management tool allows administrators to approve individual licenses allocated to the account, allowing them to manage their user base and associated LSEG Workspace entitlements.

## Enhanced multi-platform experience

Researchers, academic staff and students can continue their research seamlessly even away from university by accessing Workspace from their personal desktops or tablet via [Workspace](#).

# Enhance, enrich and extend your curriculum with best-in-class data

Drive your research and learning using real – world leading data sets

**40 BILLION**  
Daily market data updates

**92.5 MILLION**  
Company financial data

**51 MILLION**  
Estimates and KPIs

**52.8 MILLION**  
Research pages per year  
from 1,300 firms

**9.5 MILLION**  
Economic time series

**1.3 MILLION**  
Equity quotes from  
325 exchanges

## Market data and pricing

The widest available range of cross-asset data through low-latency, real-time and bulk-content delivery systems.

- Indices
- Benchmarks
- Lipper Fund data
- Equities
- Derivatives & options
- Exchange-traded funds
- Evaluated pricing
- Fixed income
- Foreign exchange – FX and interest rate polls
- Futures
- Loan pricing
- Municipal bonds
- New issues
- Real-time pricing

## Economic data

The largest collection of global economic time series content in the industry.

- Global key indicators
- National sources and calendars
- International historical sources
- Forward-looking economic indicators

## News and insight

Extensive coverage from the world's leading financial news organization.

- Reuters News
- Third-party news sources and news wires
- Thomson Reuters news
- Analytics and MarketPsych Indices

## Company data

Comprehensive and timely information to inform in-depth, bottom-up analyses. The leading provider of detailed company data.

- Bond holdings
- Business classifications
- Credit (CDS)
- Company news
- Corporate actions
- Debt new issues
- Entity risk (corporate structures)
- ESG data (ranking and ratings)
- Estimates
- Equity new issues
- Events & transcripts
- Fundamentals
- Investment research
- Mergers and acquisitions
- People data
- Ownership
- Private company data
- Shareholder activism
- Shareholding disclosures
- Syndicated loans and project finance
- Venture capital and private equity data

## Reference data

Data to support security master and enterprise data management and asset set-up.

- Index constituents & weightings
- Industry classifications
- Symbolology
- Terms and conditions

## Analytics

Unique data sets support idea generation, due diligence and decisions.

- Deal analytics
- StarMine® quantitative analytics and models

# Take your learning to the next level

## Designed with your learning goals in mind

Master the solutions financial professionals use, become certified and stand out to employers when you transition into the workforce. Benefit from a stronger curriculum that fosters applied learning.

**We offer a range of learning opportunities from live, instructor-led classes to on-demand videos. Select the option that best suits your needs.**

### Learning Pathways

Explore recommended learning topics by Job Function

### Enroll in classes

Register for live classes to receive expert tuition

### Watch videos

Browse through our library of on-demand videos to gain practical knowledge

### Take certifications

Demonstrate your knowledge of LSEG products and earn a Certificate of Completion
